

Micro/Nano Bully Kennel Marketing: Investigative Research Report

Prepared: June 24, 2026

Scope: Evidence-based marketing intelligence for American Bully breeders specializing in micro, nano, pocket, and exotic size classes

Methodology: Multi-query web research across Instagram, TikTok, Facebook, YouTube, Reddit, breeder websites, marketplace platforms, Meta policy documents, ABKC standards, and bully-industry media (Bully Girl Magazine, BGM Warehouse, Venomline, Breeding Business, FOUR PAWS)

Executive Summary

Marketing a micro/nano bully kennel is **not** generic pet marketing. The American Bully community is one of the most social-media-native dog niches on earth — younger, more competitive, and more visually driven than virtually any other breed community ([Breeding Business](#)). Kennels either dominate feeds or plateau at 50 followers. The gap is rarely luck; it is **production proof + visual branding + platform-native content + owned audience channels**.

For micro/nano specifically, the stakes are higher. "Micro" and "nano" are **market labels**, not ABKC-recognized classes ([ABKC breed standard](#); [Venomline Pocket vs Micro guide](#)). Buyers in this sub-niche pay premium prices (\$3,000–\$20,000+ per puppy; [Bully Owners Exotic Guide](#)) but are increasingly skeptical of AI-edited photos, hype-only pedigrees, and dogs that cannot move or breathe. The winning formula in 2026, articulated by 2024 Female Breeder of the Year Pushin P Bullyz on the [Bully Girl Magazine Podcast](#): **raw video over polished edits, structure over color trends, and owned communication channels over algorithm dependency**.

The single highest-ROI insight for a new micro/nano kennel: Treat Instagram/TikTok as **lead generation and brand theater**, not your sales cart. Build an email/SMS waitlist, a professional website with local SEO, and BullyPedia pedigree presence — then use social to drive qualified inquiries off-platform where deposits and contracts live.

Top 10 Marketing Methods Ranked (Micro/Nano Bully Niche)

Rank	Method	Why It Works Here	Evidence
1	Instagram Reels + branded visual identity	Bully community lives on IG; Reels get discovery; branded overlays create scroll-stop recognition	Breeding Business, Kingbuilt Bullies hashtag guide
2	Email/SMS waitlist (announce litters to list first)	Algorithm-proof; converts warm leads; creates deposit FOMO before public posts	Barketing Unleashed
3	Headliner stud/dog + bloodline name marketing	Micro/nano buyers buy names (Venom, Dax, Louis V Line); stud rate cards go viral	Venomline IG Reel – stud PIF rates
4	Before/after growth + serialized litter content	Proves production; trains audience to return; counters single-angle marketing tricks	Venomline transformations guide
5	BullyPedia pedigree + breeding database listings	200k+ pedigrees, 100k monthly visitors; industry credibility layer	BullyPedia
6	Professional website + local SEO + Google Business Profile	Captures "micro bully breeder near me" searches; legitimizes Meta presence	Better Breeder SEO, Breeder Designs
7	Kennel collaborations + Bully Girl Magazine ecosystem	Cross-audience exposure; podcast/directory = trust transfer	Bully Girl Magazine, BGM Warehouse interviews
8	TikTok (format replication, daily cadence)	Younger buyers; viral puppy content; drives IG follows	Bad Bullie Kennels TikTok, TikTok growth case study logic
9	Health testing transparency (OFA cardiac, hips, elbows)	Differentiator in hype-saturated micro market; only ~56% of tested bullies pass hips	Border City Bullies
10	Meta ads (legitimate business only) + Facebook groups	Targeted geo ads for serious buyers; groups for networking (not spam)	Meta Transparency Center, Midwoofery FB guide

Section 1: What Makes Micro/Nano Marketing Different

Terminology landscape (critical for positioning)

Term	Official Status	Market Meaning	Marketing Implication
Pocket	ABKC-recognized (males 14–17", females 13–16")	Compact, muscular, "official" small bully	Use ABKC titles, show photos, class-specific hashtags
Micro	Not ABKC-standardized	Typically under Pocket height; denser, more extreme presentation	Emphasize height/weight stats, side-by-side comparisons, movement proof
Nano	Not recognized; often interchangeable with micro	Marketing synonym for ultra-compact	Use sparingly; pair with measurable data (tape measure, scale)
Exotic	Not ABKC class; IBC/some registries	Extreme type, often Frenchie-influenced; highest controversy	Premium pricing but highest buyer skepticism — transparency is mandatory
Classic / Standard / XL	ABKC classes	Adjacent markets	Cross-tag for discovery but don't confuse brand positioning

Sources: [ABKC breed standard](#), [The Goldens Club micro guide](#), [Venomline 2026 buyer guide](#), [Bully Owners exotic guide](#)

Price positioning (2026 market)

- **Pocket (reputable):** \$3,000–\$15,000+ ([Venomline](#))
- **Micro/Exotic:** \$3,000–\$15,000+; elite/viral bloodlines \$20,000+ ([Bully Owners](#))
- **Tri-color/chocolate exotic premiums:** \$10,000–\$20,000 ([The Goldens Club](#))
- **Stud fees (top tier):** Louis V Line's Venom listed at \$25K PIF on Venomline's IG ([Insta gram Reel](#))
- **Red flag pricing:** Under \$2,000 often signals poor breeding or scams ([Venomline](#))

What micro/nano buyers actually buy

1. **Compactness with visual mass** — "big head, short frame" without looking broken
2. **Bloodline clout** — pedigree names function like luxury brand labels
3. **Color rarity** — lilac, merle, ghost tri, chocolate tri (with trend fatigue setting in per Pushin P Bullyz)
4. **Lifestyle accessory** — hip-hop, fitness, luxury, tattoo culture crossover ([Venomline IG tags](#): #luxury #designer #mma #bodybuilding)
5. **Proof the dog can live** — movement videos, breathing at rest, client pickup content

Section 2: Platform Deep-Dives & Playbooks

Instagram (Primary battlefield)

Why it dominates: The bully community is described as having a "merciless war on Instagram" while traditional breed communities barely use the platform ([Breeding Business](#)). Accounts with 10k–100k followers post ~210 times (cumulative strategy), vs. 30 posts for sub-1k accounts.

What top kennels post:

Content Type	Purpose	Examples
Front stack glamour shots	Scroll-stop; showcase head, chest, bone	Venomline's "glamour shot" methodology (YouTube tutorial)
Stud PIF rate cards (Reels)	Viral saves/shares; qualifies stud inquiries	Venomline stud rate Reel
Puppy drop / "lock in" announcements	FOMO; drives DMs	Bad_Bullie_Kennels TikTok→IG funnel
Dam × Sire breeding banners	Pedigree storytelling	BullyPedia breeding database format
Client pickup / delivery videos	Social proof	Palacio Bully Camp FaceTime policy (BGM Podcast)
Show hardware / ABKC wins	Credibility flex	Majestic Gems BANE show win posts (Threads)
16-month maturity updates	Proves micro dogs finish correctly	Majestic Gems BANE updates
Kennel BTS / whelping room	Humanizes; builds trust	Pushin P Bullyz podcast disclosures
Pedigree/registration paperwork	Trust signal	Swayside Bullies (UKC, ABKC, IBR) (website)

Posting frequency: 4–7 feed posts/week + daily Stories; Reels 3–5x/week for growth phase. Rotate hashtags — "hashtag fatigue is real" ([Kingbuilt Bullies](#)).

Reels vs. static: Reels for discovery and puppy personality; static stacks for stud portfolio and pedigree documentation. Top accounts blend both. Raw, unedited Reels increasingly outperform heavy filters in 2026 ([Pushin P Bullyz](#), [BGM Podcast S7E7](#)).

Growth tactics that work:

1. **Like-Comment-Follow in niche** — 30–45 min/night engaging via hashtag search ([Breeding Business](#))
2. **Branded visual signature** — logo placement, color overlay, consistent fonts
3. **Custom kennel hashtag** — e.g., #Venomline, #BANEGang, #PhokingStyle
4. **Collaboration posts** — swap features with similar-size kennels
5. **Tag-a-friend CTAs** — on best-performing content only
6. **Professional account** — unlocks analytics, contact buttons, ad capability

Example accounts to study:

Handle	Kennel	Focus	Notes
@venomline	Venomline Pocket Bullies	Pocket/micro, stud marketing	Rolling Stone, NBC features; Venom bloodline origin
@majesticgems_bullies	Majestic Gems Bullies	Lilac micro, San Diego	BANE headliner strategy; show wins
@mkbullssantoyo	MK Bulls Santoyo	Exotic micro, Georgia	Consistent micro/exotic hashtags
@Palacio_bullycamp	Palacio Bully Camp	South Florida, legacy program	10+ year brand; FaceTime buyer verification
@bullymon	Bullymon	Micro/nano/pocket, Australia	ABKC stack-off winner content
@builtlowkennels	Built Low Kennels	Micro/nano, Virginia	Multi-registry; stud + puppy funnel
Phoking Style	@phokingstylebullies	Chicago, extensive bloodline	BullyPedia-verified breeder; deep pedigree network
Tillman Williams	tillmankennels.com	Pocket/micro, SC	Bully Girl Magazine covers; merch line
@aprdawghize	APR Dawg Hize (Kirko Bangz)	American Bully, Houston	Celebrity kennel; franchise model; 6-city tour
Exotic Micro Bullies Int	BGM interview	Pocket/micro, Florida	Family-owned positioning; credits Phoking Style

TikTok (Discovery engine for younger buyers)

Strategy: TikTok is secondary but critical for top-of-funnel. The playbook from viral growth research: **find formats already going viral in your niche, replicate the**

hook/pacing/caption structure exactly, post daily ([Postiz TikTok case study](#)).

What works in bully TikTok:

- "Pups have arrived" birth announcements with sire x dam text overlay
- "Lock in your pup" countdown content (3 weeks out, etc.)
- Puppy pile / nursing candid clips
- Size comparison (puppy next to shoe, water bottle, or owner's hand)
- Stack attempts with funny fails (personality > perfection)
- Before/after growth montages (30/60/90 day transformations)
- Kennel tour walkthroughs with voiceover

Example: [@bad_bullie_kennels](#) — Toronto pocket bully kennel; every TikTok CTA pushes to Instagram for photos/updates/DMs. This two-platform funnel is standard in the niche.

Caption strategy: Keyword-rich captions ("pocket bully puppy Toronto micro exotic") over hashtag stuffing for TikTok SEO in 2026.

Serialized content: Document one litter from breeding confirmation → birth → weekly updates → pick day. Episodic content compounds return viewers ([Risecraft serialized social research](#)).

Facebook (Community + older buyers + ads)

Groups ecosystem: Facebook remains where serious bully enthusiasts network, discuss bloodlines, and evaluate breeders ([Kingbuilt Bullies FB groups guide](#)). Search terms: "American Bully," "exotic bully," "clean exotic," "bully breeder."

Page strategy (not personal profile):

- Dedicated **Business Page** with address, hours, website, LLC info
- Post litter announcements as **updates**, not Marketplace listings
- Join groups as a contributor first; share wins, answer questions, post stacked photos — not price lists
- Cross-promote IG content with "more BTS on Instagram" CTAs

Paid ads: Meta permits ads promoting live animals **only from legitimate businesses** (breeders, shelters, retail) — not peer-to-peer ([Meta Transparency Center](#)). Target: dog lovers, American Bully interest, 25–45, your state + surrounding states. Drive to website waitlist, not "buy now" in ad copy.

Critical policy note: Facebook **Marketplace** prohibits all animal sales. Commerce Policies ban buying/selling/trading animals on commerce surfaces ([Facebook Commerce Animals Poli](#)

[cy](#)). Use FB for brand + lead gen; close sales via website, contract, and wire/Zelle per your legal counsel.

YouTube (Authority + long-form trust)

Channel types in the niche:

1. **Kenel vlog channels** — Venomline Pocket Bullies ([YouTube](#)): show challenges, daily life, ABKC champion features
2. **Educational content** — stack photography tutorials, transformation timelines, breed guides
3. **Bully Girl Magazine Podcast** ([Apple Podcasts](#)) — interview format; kennels gain credibility by appearing
4. **BGM Warehouse breeder interview series** — [Outlawz](#), [Exotic Micro Bullies Int](#)

Content that performs:

- Stud vs. champion sister comparisons
- Kennel facility tours (state-of-the-art barns like Topdog Bullies — [topdogbullies.com](#))
- "How to photograph your bully" tutorials
- Litter birth to 8-week montages
- ABKC show vlogs

SEO value: YouTube titles/descriptions with "micro bully," "pocket bully breeder," "[city] american bully" capture search intent and feed Google results.

Reddit (r/AmericanBully — credibility, not sales)

Community norms ([r/AmericanBully](#)):

- Focus: appreciation, education, responsible breeding, rescue
- **Not** a marketplace; direct sales posts get removed
- Golden rule: **19:1 or 95:5** helpful-to-promotional ratio ([Okara Reddit marketing guide](#))
- Lurk 2–3 weeks before any self-reference
- Always disclose: "Full disclosure, I'm a breeder"
- Never cross-post identical promotional content across subreddits

How to use it strategically:

- Answer questions about micro vs. pocket sizing with honest ABKC context
- Share health testing experiences (OFA cardiac data for bullies)

- Post stack photos of your dogs in discussion threads — not "for sale" posts
- Long-term: Reddit content gets cited by AI search engines (ChatGPT, Perplexity)

Website & SEO

Must-have pages for a micro/nano kennel:

1. **Home** — hero video, kennel name, size specialty, CTA to waitlist
2. **Available Puppies / Upcoming Litters** — application form, not shopping cart
3. **Studs** — stacked photos, pedigree links, stud fee inquiry form
4. **Dams** — same format
5. **Health & Testing** — OFA links, vet protocol, guarantee terms
6. **About** — family photos, facility, LLC registration, years in program
7. **Contract / Deposit Policy** — PDF downloadable ([Venomline contract guide](#))
8. **Blog** — "Micro vs. Pocket Bully," "What to expect at pick-up," growth timelines

SEO keywords to target:

- micro bully puppies for sale [state]
- nano bully breeder near me
- exotic micro american bully [city]
- pocket bully stud service
- ABKC pocket bully breeder

Technical SEO: Mobile-first (most buyers search on phones), page speed, schema markup for LocalBusiness, NAP consistency with Google Business Profile ([Better Breeder](#)).

Professional design matters: Breeder Designs lists top bully kennel clients (Gatorhead, Topdog, Megabuilt) — custom sites signal legitimacy in a scam-heavy niche ([Breeder Designs](#)).

Puppy Marketplaces & Pedigree Platforms

Platform	Type	URL	Use Case
BullyPedia	Pedigree database + breeding classifieds	bullypedi a.net	200k+ pedigrees, 20k members, 100k monthly visitors; free breeding listings for members; not an official registry
Bully Breeds Marketplace	Classified marketplace	bullybreed smarketpl	Micro bully category listings

Platform	Type	URL	Use Case
		ace.com	
Lancaster Puppies	General puppy marketplace	lancasterpuppies.com	Tillman Williams Kennel active ads at \$4,000+
Bully Girl App	Mobile marketplace + magazine	bullygirlapp.com	Dogs/pups/studs section; advertising available
BGM Warehouse	Merch + magazine shop	bgmwarehouse.com	Ecosystem hub

Note on GoBulldog: No significant "GoBulldog" puppy marketplace was found in research. The user may be thinking of BullyPedia, Bully Breeds Marketplace, or Lancaster Puppies. Verify any platform's reputation before listing.

BullyPedia marketing hack: Create breeding banners with litter images/videos in their database — searchable by dog name, location, price, breeder name ([BullyPedia breeding index](#)). Link your BullyPedia profile in IG bio and website.

Section 3: Content Analysis — What Pictures/Videos Actually Work

Tier 1: Highest-converting content

1. **Front stack glamour shot** — Dog on slight uphill slope, front elevated, chest spread visible, ears perked, clean face. This is "the money shot" per breeder educators ([YouTube: photograph your bully](#))
2. **Multi-angle proof set** — Front stack + side stack + rear + 10-second movement clip. Venomline requires this for stud bookings ([King Koopa stud guide](#))
3. **Puppy drop announcement** — "Sire x Dam, pups arriving [date], deposit to lock pick" — drives DM flood
4. **Growth transformation Reels** — Same dog at 8 weeks / 6 months / 14 months with height overlay
5. **Client pickup video** — Buyer arriving, meeting puppy, kennel send-off; UGC gold

Tier 2: Strong engagement, moderate conversion

6. **Kennel tour** — Whelping room, outdoor yards, "dogs in home not locked in cages" (Exotic Micro Bullies Int positioning)

7. **Pedigree flex** — BullyPedia screenshot, ABKC papers, 3-gen pedigree graphic with famous names highlighted
8. **Color/size emphasis** — Tape measure at withers, puppy on scale, "13 inches at 12 months"
9. **Dam/sire feature posts** — Individual spotlights before breeding announcement
10. **Show ring stack-off footage** — ABKC comparison content

Tier 3: Community building

11. **Raw day-in-the-life** — Feeding, cleaning, vet visits (Pushin P's anti-AI-edit stance)
12. **Educational carousels** — "Micro vs. Pocket explained"
13. **Meme/humor** — Bully personality clips
14. **Merch/lifestyle** — Kennel-branded hoodies, fitness culture crossover

What underperforms or backfires

- Heavily filtered photos that look AI-generated (2026 trust crisis per Pushin P)
 - Single wide-angle puppy shots hiding structure faults ([Venomline transformations](#))
 - Leaning/extreme stacks that judges penalize ([Pose Choices guide](#))
 - Explicit "FOR SALE \$X,XXX" on-platform (Meta ban trigger)
 - Color-only marketing with no structure content (trend fatigue per BGM Podcast S7E7)
-

Section 4: Marketing "Hacks" That Actually Work

Deposit / waitlist FOMO

- **Structure:** 20–25% deposit locks pick position; balance at pickup ([Honest Dog Breeder](#))
- **Announce to email list 24–48 hours before IG** ([Barketing Unleashed](#))
- **When waitlist is full, reduce posting** — scarcity is real; don't over-market ([Honest Dog Breeder](#))
- **Automated milestone emails:** application → approved → bred → born → 2wk → 4wk → 6wk → pick day ([BreederBuddy](#))

Bloodline name drops

Name recognizable sires/dams in every breeding post. The bully market runs on pedigree celebrity:

- Louis V Line's Venom, Omega
- Daxline

- Miagi
- Kryptonite
- Phoking Style dogs (extensive BullyPedia network)
- "2X Venom" / "Venom son" shorthand signals quality instantly

Kennel collaborations

- Feature another kennel's dog; they feature yours ([Breeding Business tip #5](#))
- Co-bred litters with shared announcement graphics
- Joint ABKC show travel content
- Built Low Kennels credits Southeast Bully Kennels, Xtreme Xotic Bullies, Nice Bulls & Bullies (builtlowkennels.com)

Celebrity / hip-hop culture tie-ins

- **Big Boi — Pitfall Kennels** (American Bullies, Frenchies, English Bulldogs): Instagram puppy features linking to business ([AllHipHop](#))
- **Kirko Bangz — APR Dawg Hize**: franchise model, imported stud "Dagger," 6-city kennel tour ([Raptology](#))
- **Venomline**: Rolling Stone, NBC, Barcroft Animals features (venomlinebullies.com/about)
- **Wiz Khalifa's dog Vincent**: 56k IG followers — proof that rapper-adjacent bully content builds audience ([Celebrity Pets](#))
- **Tactical approach**: Don't cold-DM celebrities. Build quality, tag culture-adjacent accounts (fitness, tattoo, car culture), attend shows where artists appear.

Email / SMS waitlists

- Website popup: "Join the waitlist — be first to know about micro/nano litters"
- Welcome sequence: 3–5 emails (who we are, our dogs, health protocol, what to expect)
- Monthly touch even when no puppies: breed tips, kennel updates, BTS photos
- Platform: Mailchimp, Flodesk, or breeder CRM (BreederBuddy, Breeders.io)

Paid Meta ads

- **Allowed**: Legitimate breeder business promoting services to website
- **Prohibited**: Peer-to-peer animal sales, Marketplace listings ([Meta Oversight Board decision](#))
- **Ad creative**: Stack photo + "Reserve your 2026 micro bully — join waitlist" → website
- **Targeting**: Interest: American Bully, American Pit Bull Terrier, dog lovers; age 25–50; radius 100–300 miles

- **Proof of business for appeals:** LLC docs, vet letters, kennel photos, contracts ([Antiban guide](#))

Local SEO + Google Business Profile

- Category: Pet breeder / Dog breeder
- 30+ photos (facility, stacks, puppies, pick-ups)
- Weekly GBP posts with litter updates
- Collect Google reviews from every buyer
- Service area targeting for regional shipping claims

Live sales on IG

- **Policy-safe approach:** IG Live for Q&A, kennel tours, "meet the parents" — **not** auction-style bidding
- Direct viewers to website or DM for deposit link
- FOUR PAWS research found widespread policy violations in EU puppy ads on IG despite rules ([FOUR PAWS report](#))

Giveaways / contests

- **Legal caution:** Many US states prohibit giving live animals as prizes in contests/lotteries (e.g., Pennsylvania §5547 — [PA Statute](#))
- **Safer alternatives:** Merch giveaways, free stud credit, grooming packages — not live puppies
- Bully Girl Magazine runs **photo contests** (not puppy giveaways) — bullygirlmag.com/contest

Section 5: Hashtag Lists

Core bully (use on every post, rotate 8–12)

#americanbully #americanbullyofficial #bullybreed #bullylife #bullynation
 #bullyworld #bullyworldwide #bullypuppies #instabully #bullygram
 #abkcbully #theabkc #pocketbully #microbully #microbullies
 #exoticbully #exoticbullies #nanobully #pocketbullies #bullylovers

Size/class specific

#pocketamericanbully #microexoticbully #nanobulldog #extremebullies
#compactbully #shortybull #microbullypuppy #pocketbullypuppy
#nanobullypuppy #exoticmicrobully #cleanexotic #microbullylife

Color/rare (use when accurate)

#lilacbully #merlebully #tricolorbully #chocolatetribully #ghosttribully
#bluenosebully #fawnbully #champagnebully #isabellabully

Bloodline/stud

#venomline #daxline #miagiline #phokingstyle #louisvline
#studservice #bullystud #provenproducer #pedigree

Lifestyle crossover (Venomline model)

#luxury #designer #entrepreneur #dogsofinstagram #dogstagram
#doglover #doglife #fitness #bodybuilding #mma #ink #tattoo

Local geo (customize)

#americanbully[yourstate] #microbully[yourcity] #[city]bully
#bullybreeder[state] #southernbully #westcoastbully

Branded (create your own)

#[YourKennelName] #[YourKennelName]Bullies #[YourHeadlinerDogName]

Action/context tags (lower competition)

#stackedbully #bullystack #puppydrop #bullytransformation #kennellife
#whelping #bullypuppiesforsale #bullybreeder #responsiblebreeder

Rules ([Kingbuilt Bullies](#)):

- 10–15 hashtags per post; rotate combinations
- Never use irrelevant breed tags
- Mix branded + niche + broad (#dogsofinstagram)

- Repost older hits on slow days for visibility
-

Section 6: Photo/Video Shot List for Your Kennel

Per dog (studs, dams, prospects) — quarterly refresh

- ☐ Front stack glamour (uphill slope technique)
- ☐ Side stack (square stance, one rear foot back)
- ☐ Rear stack (hip width, tail set)
- ☐ Head close-up (clean face, ears up)
- ☐ 15-sec walking/trotting clip (unedited)
- ☐ 10-sec breathing at rest clip (critical for micro/exotic)
- ☐ Candid play with kids/other dogs
- ☐ Height measurement at withers (tape visible)
- ☐ Weight on scale
- ☐ ABKC paperwork + BullyPedia pedigree screenshot

Per litter — weekly from birth to pick-up

- ☐ Birth announcement clip (pups nursing)
- ☐ Week 1: pile shot, individual ID collars
- ☐ Week 2: eyes opening, individual portraits
- ☐ Week 4: personality clips, stacking practice
- ☐ Week 6: vet check, first stacks, color reveal
- ☐ Week 8: pick-day sendoff with each buyer
- ☐ Sire x Dam graphic with pedigree names
- ☐ "X weeks old / X inches" growth update Reel

Kennel/facility — annual

- ☐ Aerial or wide facility shot
- ☐ Whelping room tour
- ☐ Indoor/outdoor living areas
- ☐ Cleaning/sanitation routine clip
- ☐ Family introduction (founders on camera)
- ☐ LLC/license documentation (for website, not necessarily public IG)

Marketing assets — one-time setup

- ☐ Logo + watermark template
- ☐ Story highlight covers: Studs, Dams, Pups, Client Reviews, Health, FAQ

- ☐ Reel intro bumper (3-sec branded animation)
- ☐ Deposit/contract explainer carousel
- ☐ "How to reserve" step-by-step graphic

Section 7: What NOT To Do

Don't	Why	Source
Post "Puppy for sale \$X" on IG/FB	Meta ban; account loss	Meta Commerce Policy
Sell via Facebook Marketplace	Explicitly prohibited	FOUR PAWS
Use AI-heavy photo editing	2026 buyer distrust; Pushin P rebuild strategy	BGM Podcast S7E7
Market micro/nano without movement proof	#1 buyer complaint in exotic class	Venomline micro guide
Chase color trends only (merle, nano hype)	Market saturation; trend crash	Pushin P Bullyz; Palacio Bully Camp
Spam Reddit with ads	Ban + community backlash	LaunchKit pet Reddit guide
Run puppy giveaways	Illegal in many states	PA §5547
Fake pedigree claims	BullyPedia community verification	BullyPedia disclaimer
Over-promise "ABKC micro class"	Micro is not ABKC-official; credibility hit	ABKC
Ignore health testing in marketing	Increasingly educated buyer base	Border City Bullies
Rely 100% on one IG account	Pushin P lost 14k followers overnight	BGM Podcast S7E7
Price below \$2,000 for "rare micro"	Signals scam to informed buyers	Venomline

Section 8: Legal & Ethical Notes (Brief)

Registration marketing

- **AKC does not recognize American Bully** ([The Goldens Club](#))
- **ABKC** is the primary breed registry; recognizes Pocket, Standard, Classic, XL — **not Micro or Nano** ([ABKC](#))
- **UKC** recognizes American Bully; dual UKC+ABKC registration increases show options and perceived credibility ([Bully Max UKC vs ABKC](#))
- **IBR/IBC** and other registries used for exotic classes — disclose honestly
- **BullyPedia is NOT an official registry** — marketing tool only ([BullyPedia disclaimer](#))
- Marketing claim "ABKC-registered Pocket" is valid; "ABKC-certified Micro" is misleading

Health testing as trust signal

- American Bullies rank **#1 worst for cardiac, #2 for elbows, #10 for hips** in OFA pass rates ([Border City Bullies](#))
- Only ~56% pass hips; ~60% pass elbows
- Recommended tests: hips, elbows, cardiac (basic or advanced), patella, DM/NCL DNA panels
- **Marketing approach:** Post OFA certificate screenshots (link to ofa.org verification); explain what you test and why; never claim "health tested" without public verifiable results ([The Canine Chasm OFA guide](#))

Platform animal sales rules

- Meta prohibits peer-to-peer live animal sales across FB, IG, Marketplace, WhatsApp commerce ([Meta Transparency](#))
- Legitimate breeder **pages** may promote with restrictions; enforcement is inconsistent ([FOUR PAWS](#))
- Best practice: social = showcase; website + contract = transaction ([Social-Me UK guide](#))

Ethical positioning for micro/nano

- Exotic/micro class carries **higher health risk** (BOAS, spinal issues, shorter lifespan 5–8 years vs. 10–13 for Pocket) — [Bully Owners](#)
- Responsible marketing acknowledges risks; provides movement/breathing proof
- C-section rates and small litter sizes justify premium pricing — explain the economics honestly

Section 9: Content Calendar Template

Weekly rhythm (growth phase)

Day	Feed Post	Stories	Reels
Mon	Stud spotlight (stack + pedigree)	BTS kennel cleaning	—
Tue	Educational carousel (micro vs pocket)	Poll: "Merle or Tri?"	Puppy play clip
Wed	Dam feature	Q&A box	—
Thu	Client review / pickup reshare	Countdown to litter	Growth transformation
Fri	Breeding announcement or litter update	Stack practice	—
Sat	Candid / lifestyle / culture crossover	Show prep or event	Kennel tour clip
Sun	Community engagement (reshare tagged posts)	Week recap	"Lock in" CTA if litter active

Monthly additions

- Week 1: Email newsletter to waitlist
- Week 2: Google Business Profile post + new photos
- Week 3: BullyPedia breeding/litter update
- Week 4: Collaborate with one peer kennel

Litter cycle content (8-week sprint)

- **T-30 days:** Breeding confirmed post + email to waitlist
- **T-0:** Birth announcement (all platforms simultaneously)
- **Weekly:** Puppy update with photos + email (#3–#6 from Breeder Wise templates)
- **Week 6:** Pick selection announcement
- **Week 8:** Pick-up week content blitz + client testimonial requests

Section 10: 30/60/90 Day Launch Plan (New Micro/Nano Kennel)

Days 1–30: Foundation ("Look legit before you look big")

Week 1 — Infrastructure

- ☐ Register LLC; obtain any required state/local breeder licenses
- ☐ Secure domain: [kennelname]bullies.com or similar
- ☐ Build 5-page website: Home, Studs, Dams, About, Contact/Waitlist
- ☐ Set up Google Business Profile with 10+ initial photos
- ☐ Create IG Business account + TikTok; consistent handle across platforms
- ☐ Design logo, watermark, Story highlight covers
- ☐ Draft puppy contract + deposit policy (20–25% deposit) ([Venomline template](#))

Week 2 — Content bank

- ☐ Photograph/video every dog in program (full shot list above)
- ☐ Write 3 blog posts: "Our Program," "Micro vs. Pocket," "Health Protocol"
- ☐ Set up email waitlist (Mailchimp/Flodesk) with 3-email welcome sequence
- ☐ Create BullyPedia account; register dogs; upload pedigrees

Week 3 — Soft launch

- ☐ Post first 9 IG grid posts (aesthetic planned grid: stacks, candid, pedigrees)
- ☐ Begin 30 min/night engagement routine (like, comment, follow in niche)
- ☐ List in Bully Girl Magazine breeder directory ([register](#))
- ☐ Join 3–5 Facebook bully groups; introduce yourself (no sales)

Week 4 — Amplify

- ☐ Post first 3 Reels (stack tutorial, kennel tour, dog personality)
- ☐ Launch TikTok with cross-posted Reels
- ☐ Reach out to 2 kennels for collaboration post
- ☐ Submit health test results to OFA if not already done; add to website
- ☐ Run first GBP post: "Now accepting waitlist applications"

Day 30 KPIs: 200–500 IG followers, 25+ email subscribers, website live, 20+ posts published

Days 31–60: Traction ("Prove production")

Week 5–6 — Headliner strategy

- ☐ Name your flagship stud/dam; create branded hashtag
- ☐ Publish "meet [dog name]" Reel series (3 parts: intro, stack, personality)
- ☐ Post stud fee / breeding availability (policy-safe language: "inquire for stud service")

- ☐ First breeding announcement (even if future planned)
- ☐ Pitch Bully Girl Magazine podcast or BGM Warehouse interview

Week 7–8 — Social proof

- ☐ Collect 3 video testimonials (past buyers, vet, fellow breeder)
- ☐ Document any show attendance (even local fun shows)
- ☐ Publish first growth transformation (if prior litter exists) or maturity update on young dogs
- ☐ Launch branded merch (optional: Spreadshirt/Printify like Tillman Williams)
- ☐ Begin Reddit participation (helpful comments only, no promotion)

Day 60 KPIs: 500–1,500 IG followers, 75+ email subscribers, 1 collaboration post published, 3+ Reels over 1,000 views

Days 61–90: Monetization ("Convert attention to deposits")

Week 9–10 — Funnel optimization

- ☐ Add "Upcoming Litters" page with application form
- ☐ Run first Meta ad campaign (\$10–20/day → waitlist landing page)
- ☐ Announce first litter to **email list 48 hours before IG**
- ☐ IG Live: kennel tour Q&A (no selling on Live)
- ☐ Create BullyPedia breeding banner with litter details

Week 11–12 — Scale

- ☐ Post puppy drop content series (serialized litter documentation)
- ☐ Collect first deposits; send contract + receipt
- ☐ Request Google reviews from early clients
- ☐ Evaluate: which content type drove most DMs? Double down.
- ☐ Plan 90-day content calendar for next quarter
- ☐ Backup IG account / diversify: YouTube channel, email as primary

Day 90 KPIs: 1,000–3,000 IG followers, 150+ email subscribers, 1+ litter deposit secured or stud booking, Google Business Profile with 5+ reviews

Section 11: Key Industry Media & Ecosystem Map

Final Recommendations

1. **Pick one headliner dog** and build all marketing around that dog's name, face, and hashtag — every successful micro kennel in this research has a "BANE," "Trench Devil," or "Venom."
2. **Lead with proof, not adjectives.** In the micro/nano space, the market is drowning in "extreme," "rare," and "nano." What converts is video of the dog walking, breathing, and finishing under 14 inches with correct structure.
3. **Own your audience.** Pushin P Bullyz lost 14,000 Instagram followers in one ban. Email lists, websites, and multi-platform presence are insurance.
4. **Enter the Bully Girl / BullyPedia ecosystem early.** These are the industry trade publications — equivalent of being in the right breed magazine 20 years ago.
5. **Price for sustainability, market for transparency.** Micro breeding has high C-section costs, small litters, and reputational risk. Premium pricing is justified only when paired

with visible health testing and honest documentation.

This report synthesizes publicly available sources as of June 2026. Platform policies, pricing, and community norms change rapidly. Verify all legal requirements in your jurisdiction before launching sales activity. Consult a veterinarian and attorney for health protocol and contract compliance.
